

# Flatbed Accessories

# DuraLite® Bulkheads

Strength and security for your driver and your load... and simple installation and all without adding a lot of weight to your trailer. Aero makes a complete line of good-looking, hard-working DuraLite bulkheads to fit your needs, each with attention to detail and quality you expect from Aero.

Aero's 22" wraparound model offers plenty of room for storing bows, tarps, side panels, and stakes. Holes in the top rail are specially designed for bow storage.

Aero's 10" wraparound model gives you excellent strength and protection while adding a minimum of weight to your trailer.

## Features & Benefits

Three models available:

- 10" wraparound model for maximum loading space.
- 22" wraparound model with storage space for Side Kits and bows.
- Flat model custom-designed for your application.
- All models designed to fit any 96" or 102" trailer.
- V-front construction eliminates the need for posts across your trailer's front - maximum protection, minimum weight.
- No pockets across front of trailer necessary for wraparound models.
- All bulkheads available in aluminum and steel models.
- Aluminum models feature rounded corner castings for reduced tarp wear.
- All designs independently tested to meet DOT regulations #393.106 (d)(1).
- Various heights available to meet your needs.
- Quick, easy installation.

# StorMor® Storage Boxes

They stand tough to the harshest road environments and they still look great! Whatever you need to protect, you'll find a standard StorMor box that's more than up to the job – or let us custom design a box to meet your exact needs.

The StorMor double door design features no center post for ease of loading and unloading, with a special dual T-handle, keyed lock, and full length stainless steel hinges.

Standard single-door StorMor storage boxes look great and protect your equipment for the long haul.

Doors available in polished or mill-finished aluminum doors.

## Features & Benefits

StorMor Storage Boxes:

- Aluminum, Steel, and Tread Brite Diamond models available.
- Stainless Steel T-handle and keyed locks provide excellent security.
- Full length stainless steel hinges add durability.
- Positive rubber door seals keep the weather out.
- Single- and double-door designs available.
- Standard sizes:  
Lengths 24", 36", 48", 60"  
Height & Depth: 18" x 18", 24" x 24", 23" x 20".
- Boxes can be custom-manufactured to your specifications.
- Mounting kits available for quick, easy installation.

Inset rubber door seal keeps the weather out.

# Step, Saddle & Tractor Boxes

Now you can have all the durability, dependability, and long-lasting good looks that have made StorMor the brand of choice among truckers across the nation; with pre-assembled front and top aluminum grip steps, or StorMor Saddle Boxes in five standard sizes. All are built tough to seal out the weather, lock tight for security, and maintain their attractive Tread Brite Diamond finish for many years to come.

Aluminum grip steps provide solid footing protection.

## Features & Benefits

StorMor Step Boxes, Saddle Boxes & Tractor Boxes:

- Aluminum construction with attractive Tread Brite Diamond doors.
- Stainless Steel T-handle and keyed locks provide excellent security.
- Full length stainless steel hinges add durability.
- Positive rubber door seals keep the weather out.
- Aluminum grip steps provide solid footing protection.
- Five standard sizes available.
- Boxes can be custom-manufactured to your specifications.
- Mounting kits available for quick, easy installation.

Step Boxes are available in a variety of sizes or custom-manufactured to your specifications. Saddle Boxes are available in five standard sizes. Tractor Box mounts easily in tractor frame, provides additional storage and serves as deck plate as well.

# DuraLite® Cab Guards

As good-looking as they are hard-working, Aero cab guards provide security for your driver and protection for your investment. They're lightweight, strong, easy to install, and built to take years of on-the-road use, just what you expect from Aero!

The I-beam upright post construction of Aero Cab Guards adds strength and rigidity to the entire unit without adding excess weight.

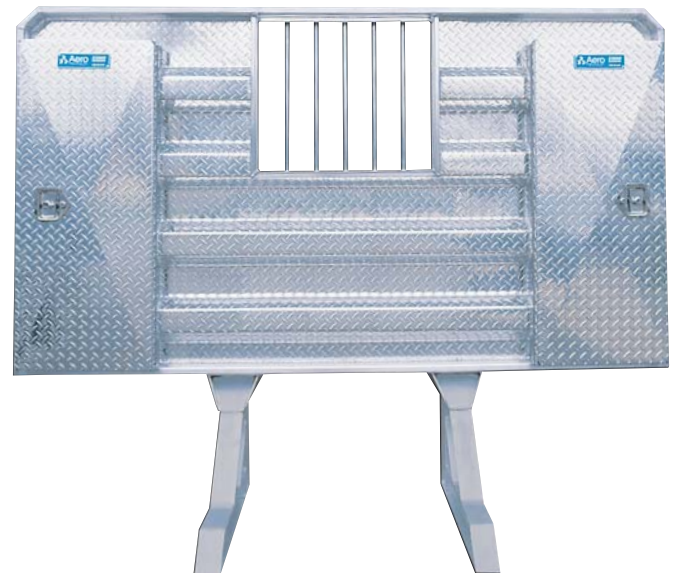

Pictured with full chain tray.

Pictured with dual chain tray.

## Features & Benefits

- Sizes available to fit all standard cab models.
- Lightweight, durable aluminum design adds maximum protection, minimum weight.
- Strong I-beam upright posts add rigidity and strength.
- U-bolt mounting kit for quick and easy installation to the back of the cab.
- Full array of options available to meet your needs.
- Chain racks.
- Full or half chain trays.
- Most designs independently tested to meet DOT regulations #393.106 (d)(1).

Pictured with window and boxes.

# StorKit® Side Kit Storage Racks

What do you do with your Side Kits when they're not in use? Store them safely and easily in Aero StorKit Side Kit storage racks that mount under your trailer. StorKit racks look great, are easy to install, and offer great protection for your Side Kit.

With Aero's innovative design, you don't have to drill holes in your trailer to mount your StorKit storage racks. They mount at the center I-beam quickly and easily.

Outstanding security with T-handle keyed lock and protective aluminum doors. Side Kit stakes and panels store in separate boxes for added convenience.

StorKit Side Kit storage racks hold Side Kit panels and stakes securely and conveniently when not in use.

## Features & Benefits

- Unique center I-beam mounting system makes installation quick and requires no holes to be drilled in the trailer.
- Aluminum doors protect Side Kit panels and stakes from the elements while providing extra security and an attractive, finished look.
- Doors available in polished or mill-finished aluminum designs.
- Keyed lock offers outstanding security.
- Rubber shock absorbers cushion rack and contents in transit.
- Side Kit stakes store in separate boxes for convenience.
- Designed to fit all models of flatbed trailers with center I-beam frames.
- Models available to hold panels and stakes, or panels, stakes, and tarp.
