

# The BOSS Snowplow Sport-Duty Plow Features

## **RT3 Quick Hitch System (Standard) or SmartHitch 2 (Optional)**

In addition to the RT3 Quick Hitch System which comes standard, homeowners can choose the optional SmartHitch 2 Attachment System for the fastest, easiest to use attachment system in the industry.

## **High Tec Light Package (Standard) or HID Light Package (Optional)**

The BOSS light package can easily be upgraded to a "HID" or High-Intensity Discharge Light Package. The HID option provides up to two times the light output of the typical snowplow light package providing unmatched nighttime visibility.

## **Poly Blade**

The super slick poly moldboard surface makes it easier to push snow while saving gas and wear and tear on your vehicle.

## **Hydraulic Cylinder Lifting System**

The hydraulic cylinder lifting system virtually eliminates the snowplow bounce associated with transporting a snowplow.

## **High-Performance Hydraulic Package**

BOSS Snowplows feature the fastest-operating, most reliable hydraulic package in the snowplow industry.

## **Joystick Control (Standard) or SmartTouch Handheld Control (Optional)**

Smooth, simple, reliable performance are benefits of the standard joystick control, while the SmartTouch handheld control features soft, illuminated buttons and smooth, natural performance. Both are easy-to-use for right or left handed operation.

## **Heavy Duty Control Plug**

Large-diameter pins provide a more reliable truck-to-plow connection.

## **Baked-On Powder-Coat Paint Finish**

Provides a high-gloss finish that also resists corrosion and rust.

## **Full-Blade Trip Design**

When an obstacle is encountered, the entire blade trips forward.

## **Two-Year Parts & Labor Warranty**

The extended warranty protects the customer against material defects.

# Specifications
