

UNDERBODY TOOLBOXES

Built for strength, durability, and corrosion resistance from all A-40 two-sided zinc coated galvanized steel. To keep the interior compartment dry and weather resistant, we've added a drip rail and a full perimeter automotive type door seal. The key lockable paddle activated rotary latches make these toolboxes a secure, convenient place to store tarps, flares, tools, chains etc.

Painted with a prime coat and a highly durable black automotive finish.

Compartment Construction

- Heavy 14 gauge A-40 two-sided galvanized zinc coated fully welded steel construction
- Full length drip molding

Door Construction

- Double panel 20 gauge doors with exclusive rigid honeycomb polystyrene stiffeners bonded between panels for maximum strength and the elimination of weld marks
- Rod and bearing type hinge with $\frac{5}{16}$ " stainless steel pin
- Automotive type key lockable paddle activated rotary latches

- Full perimeter flange mounted automotive type neoprene seal with no break at door latch for full weather proof integrity
- Cable door retainers (one per door on 24" & 30", two per door on 36", 48" & 60" lengths)

TOOLBOX OPTIONS

- Mounting brackets for attaching toolbox to truck
- Divider tray kits with adjustable dividers and mounting hardware
- Continuous hinge in lieu of rod and bearing hinge
- Custom sizes available
